### ABOUT ME

A Computer Science student at Rajamangala University of Technology Thanyaburi, and the current Head of the Computer Science Department in the 2024 academic year, this candidate possesses a high level of responsibility, leadership qualities, and a commitment to continuous self-development. Their internship goal is to pursue a Business Analyst position to gain real-world experience in business requirements and information systems analysis. They possess strong analytical and problem-solving skills, and the ability to communicate and collaborate effectively with users and development teams. They are capable of applying knowledge of the Software Development Life Cycle (SDLC) and Requirement Analysis. The candidate is ambitious, dedicated, and committed to career growth, and can work effectively with others.

### ACADEMIC PROJECTS

2024

#### PROJECT CALCULATE CALORIES

This project combined System Analysis and Design with Database Systems. I conducted user interviews to identify pain points and user needs, then analyzed the data to design the desired system structure.

2024

#### PROJECT PLANNER REMINDER

This is a Human-Computer Interaction project that involves analyzing user requirements and designing the user interface.

2025-  
NOW

#### PROJECT THE AI DIRECTORY

This is a course project integrated with the Web Application course, specifically the Special Topics in Technology for Applications course. The project involves designing the UX/UI and a database system to ensure they are interconnected and consistent.
